

# Letter of Support

The **Alliance for Integrity** is a business driven multi-stakeholder initiative promoting integrity in the economic system and improving the framework conditions for compliant and clean business. It was initiated by a number of multinational companies, the German Global Compact Network, the Federation of German Industries (BDI), the German Federal Ministry for Economic Cooperation and Development (BMZ) and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).

Important partners are Transparency International, the UNODC, the UN Global Compact, the International Chamber of Commerce, the OECD/CleanGovBiz Initiative, the World Economic Forum Partnering Against Corruption Initiative, and in particular relevant local organizations and initiatives supporting implementation. The Alliance for Integrity builds on and enables existing institutions and structures wherever and whenever possible.

The Alliance for Integrity achieves its goals through collective action and brings together actors and stakeholders from the private sector, government and civil society to:

- (1) raise awareness and collectively develop strategies and working plans for fostering integrity and supporting the business case for clean business, particularly in supply chains
- (2) foster dialogue structures between government, civil society and the private sector to tackle integrity issues at the interface between government and private sector
- (3) deliver compliance training and train-the-trainer programs for companies, vocational schools, chambers and business associations
- (4) engage with and develop capacities of local civil society
- (5) build up and promote information-pooling platforms

On a strictly voluntary basis, the Alliance for Integrity supporters pool their experience, knowledge and funds to initiate collective action activities in various countries. These activities are based on the Alliance for Integrity principles of integrity, partnership and sustainable impact and are in accordance with B20 recommendations. Companies, institutions and organisations can support the Alliance for Integrity by providing/contributing

- (a) guidance and strategic support
- (b) manpower, technical and organisational support
- (c) contacts and network connections
- (d) funding support
